

DATA MIGRATION IS OUR SPECIALTY.

IT'S WHAT WE DO.

**When compliance and quality
are on the line.**

100%

- ✓ **Pre-Migration Analysis**
- ✓ **Post-Migration Testing**
- ✓ **Peace of Mind**

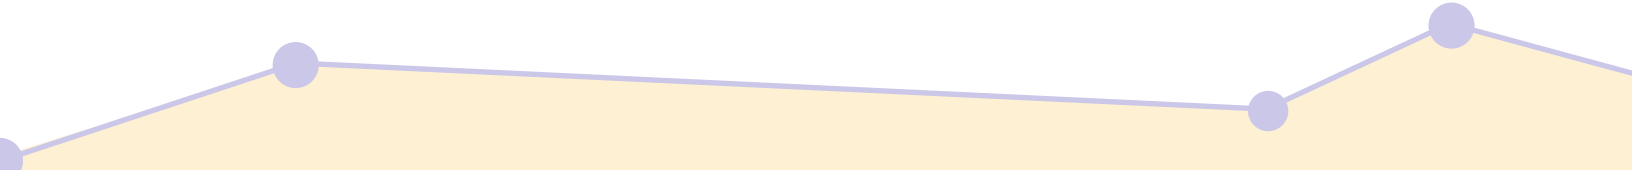

MIGRATIONS ARE COMPLEX. WE'VE GOT YOU COVERED.

Valiance Partners is the expert in critical data migrations when compliance and accuracy are at stake. We understand the complexity of data migration tasks, especially in regulated industries.

- ✔ **Our TRUseries Software** provides end-to-end data and content migration for IT, quality, validation, integration and test management.
- ✔ **Our Migration InSight Methodology** has been uniquely created and enhanced over time based on our experience successfully completing 500+ GxP migrations.
- ✔ **Our Results** speak for themselves. We provide clients with the technology, compliance and 100% data verification needed to succeed in regulated industries.

100+ CUSTOMERS, 500+ MIGRATIONS,
100% VERIFIED

“ While we evaluated doing this internally, the combination of experience, tools and domain expertise made it clear working with Valiance would be done more quickly and with a quality guarantee that our internal teams couldn't match. ”

- Executive Director of Clinical IT, Biopharma Consulting Company

VALIANCE MIGRATION SERVICES

Migration Success is Within Your Reach.

Valiance brings an unparalleled knowledge of regulatory implications, business processes and precision to every client engagement, regardless of the size. We offer various levels of migration services tailored to address your challenges.

Strategic Consulting Services

Considering setting up a migration center of excellence? Concerned about the risks associated with the consolidations of GxP application related to a pending acquisition? Trying to get your hands on how to efficiently divest systems and data? Tailored to meet clients' needs, Valiance's Strategic Consulting services turn significant challenges into strategic wins.

Project-Based Migration Services

A turnkey migration solution for the entire data and content migration and migration testing process. Driven by our Migration InSight methodology, these projects are led by our industry experts who provide complete project management, technical leadership, and analytical support to see your migrations through to successful completion.

Training & Maintenance

In addition to our strategic services, we ensure that our TRUseries clients have access to customized training and maintenance options needed to get the most out of their technology investments, from in-depth 2-day training courses to yearly maintenance packages.

MIGRATION INSIGHT METHODOLOGY

Data Migration Best Practices Redefined.

Migration InSight is our proven data migration methodology to deliver the clarity and confidence traditionally lacking in alternative approaches. We redefined migration best practices by introducing early data-level analysis and automated 100% post-migration testing.

Key Phases:

- Planning
- Analysis and Scoping
- Scope Definition
- Source to Destination Mapping
- Pre-Migration Testing
- Data Cleansing/Enrichment
- Migration Configuration and Testing
- Migration Verification
- Production Migration

UNIQUELY DESIGNED TO SUPPORT 40+ PLATFORMS

Not all businesses are created equal.
Neither are the applications and platforms they rely on.

Valiance Partners is the leading provider of GxP migration software and services when compliance and business risk demand getting it right. We work closely with several GxP system providers to successfully deliver solutions and collaborate on enhancements to their API for migrations. We also offer out-of-the-box solutions for a wide variety of other source systems, applications and technologies.

TRUmigrate
TRUcompare
TRUconsole
TRUconnect
TRUST

Refined over hundreds of migrations, the Valiance TRUseries product suite was designed to support our **Migration Services** and **Migration InSight** methodology.

TRUseries Products

TRUmigrate

Configurable and Cost-Effective Approach to Complex Data & Content Migrations.

TRUmigrate software manages complex data migration using an efficient and configurable interface – no coding required. With TRUmigrate in place, you'll never second-guess the success of your most complex projects.

TRUcompare

Automated Data Migration Testing Software with 100% Pre-Migration Testing and 100% Post-Migration Testing.

TRUcompare is an automated data, content and ETL testing software application that helps eliminate risks associated with migrations. It provides 100% pre- and post-migration testing and generates objective evidence—particularly for compliance purposes—that the migration and all data transformations were completed according to specifications.

TRUconsole

Collaborative Migration Management.

TRUconsole is tightly integrated with TRUmigrate and TRUcompare to provide a central user interface for job management and migration execution control for larger migration efforts or multisystem consolidations.

TRUconnect

GxP Application Integrations Made Simple.

If you're an FDA regulated organization looking for greater insight and control from distributed, heterogeneous GxP systems applications, TRUconnect can facilitate the integration of these critical applications - without any coding.
