

DATA MIGRATION IS OUR SPECIALTY.

IT'S WHAT WE DO.

**When Compliance and Quality are on the Line...
Experience Matters.**

100%

- ✓ **Pre-Migration Analysis**
- ✓ **Post-Migration Testing**
- ✓ **Peace of Mind**

MIGRATIONS ARE COMPLEX. WE'VE GOT YOU COVERED.

Valiance Partners is the expert in critical data migrations when compliance and accuracy are at stake. We understand the complexity of data migration tasks, especially in regulated industries.

- ✔ **Our TRUseries Software** provides end-to-end data and content migration for IT, quality, validation, integration and test management.
- ✔ **Our Migration InSight Methodology** has been uniquely created and enhanced over time based on our experience successfully completing 500+ GxP migrations.
- ✔ **Our Results** speak for themselves. We provide clients with the technology, compliance and 100% data verification needed to succeed in regulated industries.

120+ CUSTOMERS, 550+ MIGRATIONS,
ALL TOP 20 FORTUNE 500 PHARMACEUTICALS

“ While we evaluated doing this internally, the combination of experience, tools and domain expertise made it clear working with Valiance would be done more quickly and with a quality guarantee that our internal teams couldn't match. ”

- Executive Director of Clinical IT, Biopharma Consulting Company

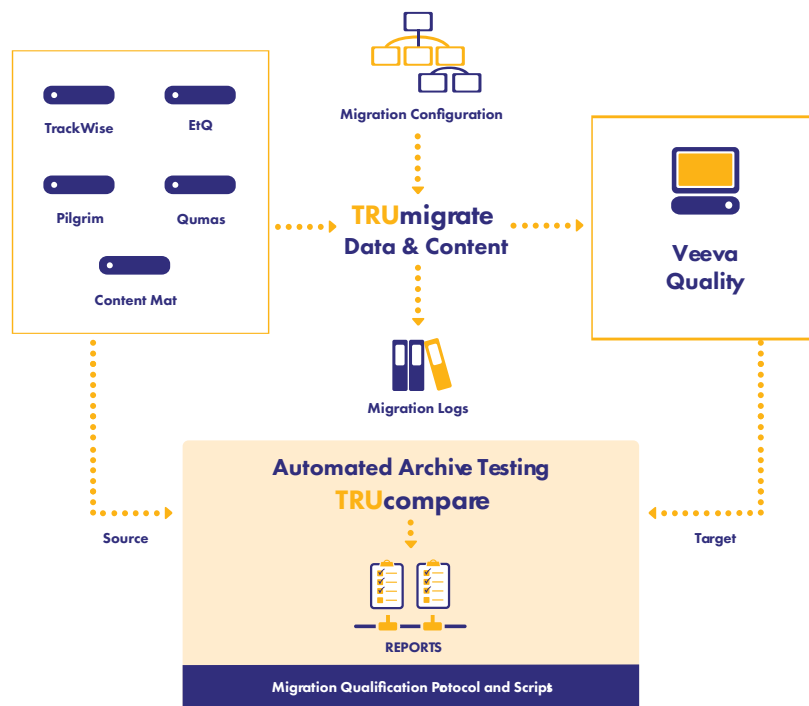

100+ VEEVA VAULT MIGRATIONS DONE RIGHT PROVEN. TESTED. PREFERRED.

Veeva Vault Migration Solution

Veeva Vault is the premier platform for regulated content management and regulatory information management. The Veeva Vault platform and suite of applications brings content, data, partners and processes together in the cloud.

When it comes to migrating your legacy data to the leading life sciences GxP platform, you'll want to choose the leading vendor for GxP systems migrations. In addition to working with Veeva to successfully deliver solutions and collaborate on enhancements to their API for migrations, we also offer out-of-the-box solutions for a wide variety of other sources, applications and technologies.

Valiance is a Certified Veeva Services Partner

Since 2006, TRUmigrate™ and TRUcompare™ have helped our clients experience **100% testing** with their data migrations for the same or less than what they would have paid for traditional manual testing techniques. Whether you have modest volumes of data or millions of documents; a single system or a large scale consolidation; **with Valiance Partners you can rest assured that your data migration will be done right the first time.**

VALIANCE MIGRATION SERVICES

Migration Success is Within Your Reach.

Valiance brings an unparalleled knowledge of regulatory implications, business processes and precision to every client engagement, regardless of the size. We offer various levels of migration services tailored to address your challenges.

Strategic Consulting Services

Considering setting up a migration center of excellence? Concerned about the risks associated with the consolidations of GxP applications related to a pending acquisition? Trying to get your hands on how to efficiently divest systems and data? Tailored to meet clients' needs, Valiance's Strategic Consulting services turn significant challenges into strategic wins.

Project-Based Migration Services

A turnkey migration solution for the entire data and content migration and migration testing process. Driven by our Migration InSight methodology, these projects are led by our industry experts who provide complete project management, technical leadership, and analytical support to see your migrations through to successful completion.

Training & Maintenance

In addition to our strategic services, we ensure that our TRUseries clients have access to customized training and maintenance options needed to get the most out of their technology investments, from in-depth 2-day training courses to yearly maintenance packages.

MIGRATION INSIGHT METHODOLOGY

Data Migration Best Practices Redefined.

Migration InSight is our proven data migration methodology to deliver the clarity and confidence traditionally lacking in alternative approaches. We redefined migration best practices by introducing early data-level analysis and automated 100% post-migration testing.

TRUmigrate™
TRUcompare™
TRUconsole™
TRUarchive™
TRUST

Refined over hundreds of migrations, the Valiance TRUseries product suite was designed to support our **Migration Services** and **Migration InSight** methodology.

TRUseries Products

TRUmigrate™

Configurable and Cost-Effective Approach to Complex Data & Content Migrations.

TRUmigrate software manages complex data migration using an efficient and configurable interface – no coding required. With TRUmigrate in place, you'll never second-guess the success of your most complex projects.

[LEARN MORE](#) ➔

TRUcompare™

Automated Data Migration Testing Software with 100% Pre-Migration Testing and 100% Post-Migration Testing.

TRUcompare is an automated data, content and ETL testing software application that helps eliminate risks associated with migrations. It provides 100% pre- and post-migration testing and generates objective evidence—particularly for compliance purposes—that the migration and all data transformations were completed according to specifications.

[LEARN MORE](#) ➔

TRUconsole™

Collaborative Migration Management.

TRUconsole is tightly integrated with TRUmigrate and TRUcompare to provide a central user interface for job management and migration execution control for larger migration efforts or multisystem consolidations.

[LEARN MORE](#) ➔

TRUarchive™

Configure, Archive, Delete.

Archiving is a common requirement for any GxP system and is an important part of your QMS strategy. TRUarchive can help you free up production equipment by archiving historical projects and systems.
